

I listen to K-LOVE daily and financially support the station. There is no radio station like K-LOVE.

When our area had a forest fire at Mt Lemmon last summer, the translator was off-line for several weeks. I missed the positive messages of hope.

I would be upset if this radio station no longer on the air and it's place given to a for-profit station.

I believe we need a mix of radio types, not just those who must advertise to meet their expenses.

There are very few radio stations that carry Christian music- it would be a great injustice to see K-LOVE no longer able to serve the local areas across the US.
